In Pardubice, 22 December 2018

Subject: Request for additional data necessary for preparation of the expert report pursuant to Act No.100/2001 Coll., as amended, for the project "New Nuclear Source at the Dukovany Site".

On the basis of summarizing any other documents received in accordance with § 9(6) of Act No. 100/2001 Coll., as amended, after the final study of all the documents received, I would like to ask for additional and explanatory documents necessary for preparation of the expert report concerning the following aspects:

- Adding explanatory documents relating to the clarification of the issues of the effect of ionizing radiation on the fauna and flora in relation to the statement of the "Joint Opinion of Austrian legal representation to protect the environment and nature" of 12 January 2018
- Adding explanatory documents to the statement of the "Ministry of Energy, Department of Nuclear Energy" of the Republic of Poland of 8 March 2018 in relation to the transboundary impacts relating to the effective doses and committed effective doses

Additional documents including explanation of the above facts can be considered necessary to continue further work on the impact assessment of the project "New Nuclear Source at the Dukovany Site".

Yours faithfully,

*Illegible signature*

Tomáš Bajer
